

# Love Don't Ask

Said the Whale

Love don't ask me  
Love tell me what you do  
And I'll do anything you ask me

Love call the shots  
Love be in charge of it, right?  
Love be the hope we can find  
Brave together  
Uninspired  
In spite of the fires  
The river is dead

Love for my home and my family, where I'm from  
For fifteen minutes of what? Fame? Hah, no  
I regret nothing yet  
But nothing in my life is for free, oh

Love don't ask me  
Love tell me what to do  
And I'll do anything you ask me  
Love don't ask me  
Love tell me what to do  
And I'll do anything you ask me

Love call it off  
Love be ashamed of it, right?  
Love better hope we don't find  
Brave together  
Whether inspired  
In sight of the fires  
The river is red

Love don't ask me  
Love tell me what to do  
And I'll do anything you ask me  
Love don't ask me  
Love tell me what to do  
And I'll do anything you ask me

And it's strange but it's true  
I wouldn't wanna go on without you  
Baby by my side, we could survive  
For a week or two  
Baby, me and you, we could survive

And we could  
Build a fire so bright  
I could see the world  
Around us clearly for a while  
A simple life alone with you  
Beside me would be paradise

Build a fire so bright  
I could see the world  
Around me clearly for a while  
A simple life alone with you  
Beside me would be paradise
