

## Taking Abalonia

Said the Whale

Sad songs and lullabies  
Are singing the world goodnight  
Sleep tight little world

Sirens on Christmas day  
Bad luck is here to stay  
I'm watching the world go by

I'm counting out the seconds  
Between thunder and lightning  
The rain is nature's copper wire  
It's wrapped around my feet  
And I'm standing in a field  
The widest open field

Pack my bags and I am on my way  
One last look at how things used to be  
I'll burn a fire that you can see  
You'll swim ashore and rescue me  
We'll build a ship and sail to sea  
And start our very own country

I'm taking Abalonia
