

# Waste My Time

Saint Asonia

Hold onto me  
Like we're the only ones that see  
The sky above us falling down  
And breathe in my ear  
Like we're the only ones that hear  
The mountains crashing down

I had wasted most of my life  
Playing games that I knew I'd lose  
Let me sing to you, just sit here don't move  
I just wanna waste some time with you

So take my hand  
I don't understand  
How they kept us apart for so long  
And smile so I can see  
That it's really you in front of me  
'Cause that's still just so hard to believe

I have wasted most of my life  
Playing games that I knew I'd lose  
Let me sing to you  
Just sit here don't move  
I just wanna waste some time with you

Forcing back the tears  
Over all the years  
Boarding up the door  
And throwing my hope to the floor  
I could not forget  
Now it all makes sense  
That you're here with me  
And I never never want to leave

I would've wasted most of my life  
Never even knowing you  
Now you sing to me and I still don't believe  
That you wanna waste some time with me

Let me sing to you, just sit here don't move  
I just wanna waste some time with you  
And now you sing to me and I still don't believe  
That you wanna waste your time with me
