

Find Me a Boy

Saint Etienne

So many friends that I happen to see
Have told me they're in love
Oh how I wish it could happen to me
And I'm asking the stars up above
won't you find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue
I just wish for a gentle boy
Someone who's sweet and kind
Just a nice sentimental boy
That's all that I'm really longing to find
so many friends that I happen to see
Have been telling me all about love
Oh how I wish it could happen to me
Is the only thing I'm thinking of
so I'll find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue
so I'll find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue
