

Take It All In

Saint Etienne

It doesn't matter where you've come from
It doesn't matter where you've been
I've no interest in touring bygones
Or the spaces in between

There's a cutting in the hillside
You can see for miles around
If you ever wanted to decide
It's where the answers can be found

You've gotta stop and let yourself
Take it all in
Sometimes you gotta drop it all
And just take it all in
So smile and get it on
Just take it all in
Then you'll begin
To really see

No one said it would be easy
No one told you it would be fun
But you're gonna have to believe me
The party's just begun

You've gotta stop and let yourself
Take it all in
Sometimes you gotta drop it all
And just take it all in
So smile and get it on
Just take it all in
Then you'll begin
To really see
