

This Is Tomorrow

Saint Etienne

Tomorrow's not too soon
And it's what we're here to do with you
Oh, leave the door wide open
They're coming round the corner
Knowing that the time has come along

Something new people will always criticize
Politically, 20 years till we realize
Sunny day, anyday, take me to the South side

'Cause tomorrow's come today
And that's what we're here to say, OK?
Oh, leave the door wide open
They're coming round the corner
Knowing that the time has come along

Something new people will always criticize
Politically, 20 years till we realize
Sunny day, anyday, take me to the South side

Take me there, something good that I can't describe
Fill it up, shake it up, take me for a ride
Sunny day, anyday, take me to the South side

This is tomorrow
(If you miss this chance you will regret it
Not today, maybe not tomorrow)
This is tomorrow
(But soon and for the rest of your life)

Something new people will always criticize
Politically, 20 years till we realize
Sunny day, anyday, take me to the South side

Take me there, something good that I can't describe
Fill it up, shake it up, take me for a ride
Sunny day, anyday, take me to the South side

This is tomorrow...
