

Midnight Movies

Saint Motel

I found my love
I found my love

Please don't go walking out that door

Going out for a smoke
Going out for smokes

Don't leave dear please leave my dear

Stories get told, I hear the plotline unfold, director

Staying for the night
Staying for the night

Please keep the volume down inside

I'll be right back
I'll be right back

Don't leave dear please don't leave my dear

Stories get told, I hear the plotlines unfold, it seems they're
handing me gold
Stories get told here at the midnight movies

Come let me in
Come let me in

Please walk away from my front door

I'll break it down
I'll break it down

Please leave dear please just leave my dear

Stories get told, I hear the plot lines unfold, plenty more to
be told
Stories get told here at the midnight movies
