

Puzzle Pieces

Saint Motel

I g-g-g-g-gotta say honestly,
When you look me it's like a gun goes off deep inside of me
I can hardly move I can barely breathe near your features

The t-t-t-t-t-t-trouble is it's just so obvious I still see all
the lines of surgery remnants
Where you cut away, left your flaws behind in the ether

F-f-f-Face of puzzle pieces!
That don't fit together
Puzzle pieces
That don't fit together

It's never right but you just can't move on
You can't decide to take away or put on
Your design but you won't stop working
A masterpiece in the flesh
It's your puzzle!
It's your puzzle!
It's yours

The d-d-d-d-d-d-d-
Doctor's hands carry out the plans to take you all apart
And put you back again
Your face is canvas and your own body serves
As the easel

It's just-it's just-
it's just so hard to quit when you're hooked on it
You're just a junkie craving one more plastic fix
Keep you update with the all the latest trends of the seasons

F-f-f-face of puzzle pieces!
That don't fit together
Puzzle pieces
That don't fit together
It's never right but you just can't move one
You can't decide take away or put on
Your design but you won't stop working
A masterpiece in the flesh
It's your puzzle!
It's your puzzle!
It's yours
