

Me? I'm just a dreamer
My head's in the clouds
You, you're my anchor
Keep me on the ground
I'm a believer
And you're down the line
You know the backs
But I like reading minds

You and me different as can be
But we make something better, we make something better
Oh, our hearts beat like an echo
And it goes on, the answer to my calls
It goes on and on and on
It goes on and on and on

If I'm technicolor
And you're black and white
Your warmth is silence
Whilst I pick a fight
You, you're the balance
For my dizzy edge
Fools rush in where angels fear to tread

You and me different as can be
But we make something better, we make something better
Oh, our hearts beat like an echo
And it goes on, the answer to my calls
It goes on and on and on
It goes on and on and on

I wouldn't change anything
You, you're my everything
I don't need anything more
When you hear me calling me calling
Your heart it answers me, your heart it answers me
Our heart beats like an echo

Oh, our hearts beat like an echo
And it goes on, the answer to my calls
It goes on and on and on
It goes on and on and on
Our hearts beat like an echo (hearts beat like an echo, beat like an echo, like an echo, like an echo, like an echo)
