

Wide Eyed Blind

Saint Raymond

It seemed like you were always looking for a way out
Like it would never be the same again
I laid awake and I was shaking as it played out
Didn't wanna believe it was happening

You said you were sick of my questions
Was anything real?
I was sick of you keeping me guessing
Do you even know how it feels?

Wide-eyed, blind to the fact
You were one thing to my face
And another behind my back
And whilst you were kissing my cheek
You were kicking me in the teeth
And I gotta live with that
In my head every word you've said
Is playing on my mind, I was
Wide-eyed blind, wide-eyed blind

Now I know exactly where you've been
I can breathe in, I can breathe out
I can find a way to live again
Finally sleeping at night
Now I've cried all my tears out (tears out)
But I still hear your voice every now and then

You said you were sick of my questions
Was anything real?
I was sick of you keeping me guessing
Do you even know how it feels?

Wide-eyed, blind to the fact
You were one thing to my face
And another behind my back
And whilst you were kissing my cheek
You were kicking me in the teeth
And I gotta live with that
In my head every word you've said
Is playing on my mind, I was
Wide-eyed blind, wide-eyed blind

Wide-eyed blinded, I was so
Wide-eyed blinded, I was so
Wide-eyed blinded, I was so
Wide-eyed blinded, I was so
Wide-eyed blinded, I was so
Wide-eyed blinded, I was so

Wide-eyed, blind to the fact
You were one thing to my face
And another behind my back
And whilst you were kissing my cheek
You were kicking me in the teeth
And I gotta live with that
In my head every word you've said
Is playing on my mind, I was

Wide-eyed blind, wide-eyed blind
Wide-eyed blind, wide-eyed blind
