

Bluest Eyes

Salem Al Fakir

Since the beginning of time
Evil fooled the human kind
And still today he's around
Finding his way into people's minds

I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies they try to show us is dangerous

We better all watch out
Evil is hiding in them bluest eyes
He never screams or shouts
Standing there laughing with a big fat smile

I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies they try to show us is dangerous

I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies they try to show us is dangerous

Evil is hiding in them bluest eyes (x4)

I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies on television is dangerous
I don't believe in anything they're telling us
All them lies on television is dangerous
