

Count Me Out

Salem Al Fakir

How am I supposed to be?
It seems like you already figured it out
But maybe we don't need the same script
Cuz I'm gonna say the right line

Yeah, yeah, yeah, yeah
Just let it go
You don't need me anymore
Find someone else who bothers
Just let it go
Let me off your mind
You can count me out

We've already gone through this before
Do we have to do it again?
I don't want you to say no more
Cuz I have changed and you are the same

Just let it go
You don't need me anymore
Find someone else who bothers
Just let it go
Let me off your mind
You can count me out
Just let it go
You don't need me anymore
Find someone else who bothers
Just let it go
Just let me off your mind
You can count me out
Just let it go
Find someone else who bothers
Just let it go
Just let me off your mind
You can count me out
