## **Get Yourself Another Fool**

Sam Cooke

Oh, at last I've awaken To see what you've done What can I do
But pack up and run

Now, I know the rules Get yourself another fool

You said that you love me I was yours to command But your kind of love My heart couldn't stand

Use me for a tool Get yourself another fool

And now, now that we're through You say you meant to be true Oh, but deep down in your heart I know That our love could never grow

I tried to believe you That we'd never part But your kind of love Broke my poor heart

No I know the rules Get yourself another fool

Get yourself another fool
