

# You Got It Made

Sam & Dave

You got it made with me  
You got it made with me

Don't worry about  
Anybody else  
Beating your time, no  
Don't think about  
Another girl 'cause she  
Knows you're mine

You got it made with me  
You got it made with me

You got it and  
I need it just  
To make me real  
I needed nothing for  
[?] the sweet love  
That you feel

Cookies crumble  
But my love don't  
Every break at all  
So when you're lonely  
And need me only  
Give me a call

You got it made with me  
You got it made with me
