

Never Enough

Sam Roberts

You talk too much you break too much
Some people saying that you take too much
You move too much you shake too much
Everyone saying you escape too much

But you can't stop 'cause it's never enough
You're on top but it's never enough
You take it all 'cause it's never enough
You break it all but it's never enough
I must confess I can't settle for less
So take it all 'cause it's never
Oh it's never, it's never enough

Could this be could it be for real
Is this the best I'm ever gonna feel
It was under control now you're forced to steal
You were on a roll now you're back on your heels

But you can't stop 'cause it's never enough
You're on top but it's never enough
You take it all 'cause it's never enough
You break it all but it's never enough
I must confess, can't settle for less
So take it all 'cause it's never
Oh it's never it's never enough

Even when we were kids
And they loosened the grip
We would give 'em the slip
It was never enough
All the places we go, all the people we know
All the faces that show, but it's never enough

All the money in the world can't buy you a dream
And all the prayers in your heart but never make you clean
Instead of sitting there waiting for the bottom to drop
Keep on looking under every rock and never never stop

Can't stop 'cause it's never enough
You're on top but it's never enough
You take it all but it's never enough
You break it all but it's never enough
I must confess, can't settle for less
So take it all 'cause it's never
Oh it's never, it's never enough

Even when we were kids
And they loosened the grip
We would give 'em the slip
It was never enough
All the places we go, all the people we know
All the faces that show, but it's never enough
Oh it's never enough, it's never enough, it's never enough, it's never...
Oh it's never enough, it's never enough, it's never enough, it's never...
Oh it's never enough, it's never enough, it's never enough, it's never enough
