

The Hands Of Love

Sam Roberts

I can feel it comin' on
Any day now, won't be long
I can feel it comin' on
Any day now, won't be long
Empty your heart
Empty your eyes
They're gonna teach you
Your head's on fire
Look to the skies
They're gonna reach you

The Hands of Love
Are holding you
The Hands of Love
Are holding you

Hear the city, turn it up
Take your money, burn it up
Lose you patience, lose pride
Bury your conscience
All in stride

The Hands of Love
Are holding you
The Hands of Love
Are holding you
The Hands of Love
Will pull you through
The Hands of Love
Are holding you

The road that never bends
The one that never ends
I'll see you there my friends
We'll be together then
We'll walk towards the Hands
We'll sink into the sand
I'll see you there my friends
We'll be together then

....Are holding you
....Are holding you

The Hands of Love
Are holding you
The Hands of Love
Are holding you
The Hands of Love
Will pull you through
The Hands of Love
Are holding you
