

It's so sticky

You seem to be a lot of mean  
But baby you know it just can't be  
Oh no  
To me you're just to clingy  
And now you need to set me free  
C'mon and set me free  
See I went outside just to take a stroll  
And when I came back I had ten missed calls  
From you ooooo  
And when you're walking down the street doing what you do  
And you step into some gum that's stuck to your shoe  
That reminds me of you

You must've thought I was a snack  
Because you're sticking to me like cling wrap [2x]

You must've thought I was your wife  
Because you're trying to run my life  
You're causing me a lot of strife  
I'm gonna cut you up now let me grab my knife  
Where's my knife? where's my knife?  
See I got enough friends that could fill a truck up  
Now give me some room and just back the fuck up  
Like when you're washing you're clothes at the laundromatic  
And you pull them out the dryer and they stick like static  
That's what you do

You must've thought I was a snack  
Because you're sticking to me like cling wrap [2x]

Now listen  
I'm gonna need me a pair of pliers  
To get you off my back because you've crossed your wires  
I need you like I need fifteen spent tires  
If I was donald trump then I'd say you're fired  
It's the cling wrap

Now see  
I don't wanna come off all negative and shit  
But some of y'all need to take a hint  
So remember when people be dropping hints then take em  
Take em and implement em before ya  
Before ya peace out so cold and act all crazy  
When'd ya get so crazy baby  
What? that's wrong

La la la  
Your sticky your sticky your sticky  
And you're like cling wrap [4x]
