

Fuck, Fuck, Fuck...  
Hey!  
Hi hey!  
[voices]  
Here we go again, here we go again  
[voices]  
O Fortuna, stay around me  
Be my lover eternally  
O Gloria, in ecstasy  
As my hands read your body  
O Maria, honestly  
Would you betray your family for me  
We'll be one with everything  
I'll make sure you get there  
Before I come, before I join  
And we grab the stars, capture the universe  
Hey, hey, mph, mph, ha, ha  
Hey, hey, mph, mph, ha, ha  
All different but yet so the same  
It's always new, it's always fresh  
You nail me down, I take the blame  
For god my soul, for you my flesh  
We'll be one with everything  
I'll make sure you get there  
Before I come, before I join  
And we grab the stars, capture the universe
