

I'll come running over

Samantha Fish

Ooh, yeah, now I'm sorry, baby
I didn't mean to make you cry
Come on now, honey please forgive me
I'll never tell another lie

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running to you
I'll come running to you
Oh, I'll come running over
I'll come running over
I'll come running over
And give my love to you

All your friends, they used to love me
Well if you do, why don't you show it
Somehow I know that you still want me
Come on now, baby, make me know it

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running to you

I'll come running to you
Oh, I'll come running over
I'll come running over
I'll come running over
And give my love to you

Now come on honey think it over
Don't let your foolish pride end it
If I have broken your heart, baby
Then give me one more chance to mend it

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running to you
I'll come running to you
Oh, I'll come running over
I'll come running over, everyday
