Samantha Jade

I wanna go home
To the place where I have grown up and belong
I wanna fly free
Be the person I know I was built to be

No matter where I've been to
Or the places I have left
The beauty I have seen and
The hearts that I have touched
Were never enough

I wanna go home
Home
I wanna go home

I wanna go home
To the family and the friends that know me most
I wanna be still
In the moment hold them close for something real

No matter where I've been to
Or the places I have left
The beauty I have seen and
The hearts that I have touched
Were never enough

I wanna go home
Home
I wanna go home

No matter where I've been to
Over seas across the shores
All the while I'm longing
To open my front door
Couldn't love you more

I wanna go home
Home
Take me home

I wanna go home
To the place where I have grown up and belong

I wanna go home
