

Let Me Love You

Samantha Jade

I'm feelin' the pressure
I'm feelin' the weight of what they do
They're making decisions
Pulling me further from my truth
I'm stuck on a mission
When all I wanna do is be with you
Be with you

My mind stops racing
When I hold you tight
Forget about all the things they say for just one night
So touch me reckless
And don't be shy
And show them forever baby
You are mine

All I wanna do is love you
In every way I can
All I wanna do is hold you
They don't understand
All I wanna do is love you
In every way I can
It's my right to love you
Love you, love you

Let me, let me love you
Let me, let me love you
Let me, let me love you
Love you, love you

Let me, let me love you
Let me, let me love you
Let me, let me love you
Love you, love you

(?) a religion
By over a thousand year old man
They start a petition
To find out who can take what hand
They start a comotion
When all I wanna do is be with you
Be with you

But we'll still face it
Every time
We got enough is us to last a thousand lives

So kiss me reckless
And don't be shy
Just show them forever baby
You are mine

All I wanna do is love you
In every way I can
All I wanna do is hold you
They don't understand
All I wanna do is love you

In every way I can
It's my right to love you
Love you, love you

Let me, let me love you
Let me, let me love you
Let me, let me love you
Love you, love you

Let me, let me love you
Let me, let me love you
Let me, let me love you
Love you, love you

All I wanna do is love you
In every way, every way
That I can

All I wanna do is hold you
With no rules
It's my right to love you
Love you, love you

All I wanna do is love you
In every way I can
All I wanna do is hold you
They don't understand
All I wanna do is love you
In every way I can
It's my right to love you
Love you, love you

Let me, let me love you
Let me, let me love you
Let me, let me love you
Love you, love you

Baby let me love you
Let me, let me love you
Let me, let me love you
Love you, love you
