

# Let the Good Times Roll

Samantha Jade

Remember the good times they were better than the worst  
Remember the first cut is deeper than the second time, oh round  
We give it all we have to give  
We live harder than we ever lived, oh yeah  
The memories play back in my mind  
Like a Kodak one more time,  
One more time, before the maybes and if only's  
Long before her when you found me  
You found me!

So let the good times roll, oh  
And let the good times roll  
So let the good times roll, oh, oh, oh  
Let the good times roll, oh  
Let the good times roll

Leaves on the branches as the seasons turn  
No second chances only lessons learnt  
These days I always wanna know where you are  
Pray that you're happy where you are, oho

So let the good times roll, oh  
And let the good times roll  
So let the good times roll, oh, oh, oh  
Let the good times roll, oh

It's crazy how the life turned out  
I thought we had it all planned out  
But as I hit the lights and turn the bed down  
I say goodnight in the end, I let go  
The sweetest pain I've ever known  
But when you can rewind the time  
Here's to looking back, we'll say

Let the good times roll, oh  
And let the good times roll  
So let the good times roll, oh, oh, oh  
Let the good times roll, oh

Yeah we're gonna let the good times roll  
Let the good times roll, oh  
Let the good times roll, oh, oh  
Let the good times roll, oh, oh  
Remember the good times they were better than the worst
