But I got no introduction to the youngest girl out here  
So I say... you like this one?

Baby for you call me it's what you need to understand  
One little thing from me  
So just give me a little space  
Why you all up in my face?  
Gone is what you need to be

So just wake up, move up  
Let go, I know  
You know I'm not single  
So you should be respectin everything I'm sayin  
Baby, that's a fact  
Your mama has been not shown you how to move

Save all your games cause I don't want you

You're breathing down my neck each time I come out on the floor  
I just came to dance, I can't take it all, no  
Just lay it boy, you know you need to go  
Why don't you understand as if it ain't all for you

Save all your games cause I don't want you
