

So Right

Samantha Jade

Tell how you do those things you do
I'm really craving you
I think about you all the time, can't get you off my mind
I do get through the day
I got so much to say
I'm really falling sick awaiting
Gotta make you mine

Baby I really gotta tell you you, wussup?
As I've been thinking lately about us
Never thought I could want someone this much
Pure love is hard to find
So let's give it a try
I need you in my life, in my life
Cause together boy we could be so right

Baby, I wanna tell you that I don't know how
Can't deny all the feelings that I have inside
It's time that you see
That I'm what you need
Cause together boy we could be so right

I've been waiting patiently
For you to approach me
But time is passing so I'm thinking I should make the move
Hard, but I've got to try
Just look into my eyes
You'd feel what I feel, I know it's real
There's nothing left to prove

Baby I really gotta tell you you, wussup?
As I've been thinking lately about us
Never thought I could want someone this much
Pure love is hard to find
So let's give it a try
I need you in my life, in my life
Cause together boy we'd be so right

Baby, I wanna tell you that I don't know how
Can't deny all the feelings that I have inside
It's time that you see
That I'm what you need
Cause together boy we could be so right

If only you'd know you changed my life
In a thousand ways I...
I wouldn't have to wish you were mine
And it's not the days or...
I gotta try telling you how I feel
Cause I know that what I feel could be so real
And I would never let you go

Baby, I wanna tell you that I don't know how
Can't deny all the feelings that I have inside
It's time that you see
That I'm what you need
Cause together boy we could be so right

Baby, I wanna tell you that I don't know how
Can't deny all the feelings that I have inside
It's time that you see
That I'm what you need
Cause together boy we could be so right
