

This Candle Time of Year

Samantha Jade

Light a candle, watch the flame
Remember those who share your name
See it flicker and see it glow
And in this moment truly know

Where there is comfort there is peace
And in the darkness you will see

Lift your candle and sing
With the spirit of Christmas
In your heart
Lift your voices and sing
Share the spirit of Christmas
Tonight in this candle
Candle time of year

Light a candle burning bright
Wave the flame and share the light
Feel the warmth and see it glow
In in this moment truly know

Where there is joy there is love
We come together now as one

Lift your candle and sing
With the spirit of Christmas
In your heart
Lift your voices and sing
Share the spirit of Christmas
Tonight in this candle
Candle time of year

Hope begins when fear fades
It brings a new day
So light your candle and I light mine
And meet the [?] time

So lift your candle and sing
With the spirit of Christmas
In your heart
Lift your voices and sing
Share the spirit of Christmas
Tonight in this candle
Candle time of year

In this candle
Candle time of year
