

Let Me Be The One

Same Difference

If love is so easy,
Why do words come out wrong?
Cause I've been longing to tell you,
It's with you that I belong
I don't know much, but this much I know
I have fallen in love,
Don't want to let this feeling go

I'm helplessly, hopelessly falling,
In love with you

Let me be the one, let me show you how
How my heart was made for loving only you
You're my morning light
You're my dreams at night
You're my everything just let me be the one

The beat of your heart, is like music to my soul
You're the piece I've been missing
You're the half that makes me whole

I'm helplessly, hopelessly falling,
In love with you
