

## Never Ever

Sámer Issa

Never ever forget to you  
Never ever forget to you  
I've been loving you and  
You've been loving me  
I am missing you but you're not missing me  
Singing there and waiting  
Standing by myself  
I've been praying to  
Find someone like you  
It's hard  
I know it  
It hurts  
You know it  
I'll pray, baby  
I will never forget you babe  
Never ever never will forget you babe  
I swear, I swear  
Never ever see you  
Never ever feel you  
Never ever forget you babe  
I know it's my fault  
But now it's too late  
Never ever never will forget you babe  
Never ever never will forget you babe  
Never see you babe  
Never feel you babe  
Never ever forget you babe  
I'll pray babe, I will never forget you babe
