

One light, one hope
One heart, one soul
One chance to know
One time to go

There's just one call from my heart
It pulls me to a world apart
There's just one word that I hear
One drum, that calls me near
When the spring has been unwound
What is lost will soon be found

To the call that comes from inside you
To the light that shines just to find you
Go
To the drum that beats from inside you
To the one that's calling to find you
Go
I know, know I must go, go
I know, know I must go, go
I must go

One light, one hope
One heart, one soul
One chance to know
One time to go

In the mirror you stare
Your eyes are calling me there
Your friend has taken my hand
Guides me beyond any land

If you're far I'll soon be near
What is faint will soon be clear

To the call that comes from inside you
To the light that shines just to find you
Go
To the drum that beats from inside you
To the one that's calling to find you
Go
I know, know I must go, go
I know, know I must go, go
I must go

One light, one hope
One heart, one soul
One chance to know
One time to go

On to the drum
To the voice of the one
I must go, I must follow the
Spark that lights us all
Illuminated by the call
With one heart, with one hope I will
Go, go, I must go, go

I know, know, I must go, go
I must go

And I know, know I must go, go
I know, know I must go, go
I must go
