

80 West

Samiam

Foggy sunsets are the best, A100 80 West
On the bridge over the bay that takes me to you
Sometimes the way I get my thoughts are cloudy
I forget how good I always feel when I'm with you

I've finally figured out I need to be around
Your sights & sounds I've been away for too long

Can't let go, I can't hold back
I'm not sure which shore to attack
I'm overwhelmed with possibilities
When I reach you I'll be fine
But now you're just a distant skyline
Reminding me of where I want to be

I've been away for so long
