## **Get It Right**

Samiam

Why would I ever consider Letting myself get wrapped up again with you I spent more than just my time Begging you to stop the fucked up things you do Before I gave up on you But we'll get it right We'll get it right This time We'll get it right We'll get it right We'll get it right This time You don't want me telling people What went down before you got your head on straight When they see you with me now They look at you as if they know Must have found out anyway But we'll get it right We'll get it right This time We'll get it right Get it right Get it right This time Think it's worth another try Starting over don't seem possible to me We'd only be continuing Continuing with more of the same Just more of the same But we'll get it right Get it right Get it right This time We'll get it right Get it right Get it right This time
