

Whole

Samiam

You're sittin' in your hole again
Down sad and alone again
You see something that makes you feel complete
Then it's gone and you're down again

You're playin' on the edge again
Don't push or you might fall
You're playin' on the edge again
Now you might fall

You're playin' on the edge again
Don't push or you might fall
You're playin' on the edge again
Now you might fall

You see something that makes you feel complete
Then it's gone and you're down again

You're playin' on the edge again
Don't push or you might fall
You're playin' on the edge again
Now you might fall

You're playin' on the edge again
Don't push or you might fall
You're playin' on the edge again
Now you might fall

You see something that makes you feel complete
Then it's gone and you're down again
