

INTOXICATED

Sammie

Girl, tonight I wanna love you
How about a little foreplay
I'm trying to set the mood right, mood right
Be Ciroc, Shawty get it up in you
That get you warm while I hold you in my arms
We about to get faded, wasted

Intoxicated while I'm feeling you up
Taking shots of your body
Yeah, I've been patient, but girl, tonight I wanna fuck
Intoxicate me, shower me with your love
Want your body on my body
I'm gonna make you take it
So girl, get naked!

Baby, it's time we made love
I can hear your body calling, I'm picking up
Baby, tell me what you want
I'm a take a shot, you gonna take a shot
We're about to get faded, wasted,

Let the music flow
Girl, you're breathing heavy
Got the Patron on chill
Girl, you're flooding my sheets
I think somebody broke the loving
Drop it, drop, girl
I promise I won't dry
Girl, only if you let me
I'm trying to get in your seat
But I know not mine
Girl, I'm so faded, wasted!

Baby, it's time we made love
I can hear your body calling, I'm picking up
Baby, tell me what you want
I'm a take a shot, you gonna take a shot
We're about to get faded, wasted,
Intoxicated, intoxicated, intoxicated!

You're rocking the boat, I work in the middle
Intoxicated love, baby girl I feel you
Yeah, this is what you are, baby girl I feel you
Is faded, wasted oh!

Baby, it's time we made love
I can hear your body calling, I'm picking up
Baby, tell me what you want
I'm a take a shot, you gonna take a shot
We're about to get faded, wasted,
Intoxicated, intoxicated, intoxicated!
