

Playlist

Sammie

Maybe tonight I'ma do what you like
Keep you coming, make you feel me
In your stomach, is that alright?
After I take off your clothes
Baby, anything goes
Kiss you lower, take it slower
Baby, hold up
Don't stop the flow

I'ma make your legs shake
I'ma make your bedrock
Tongue between your legs babe
Call that shit the 'Head-lock'
I'ma show and prove
I'm lost when in you

I'ma make your legs shake
I'ma make your bedrock
Tongue between your legs babe
Call that shit the 'Head-lock'
I'ma show and prove
I'm lost when in you

I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you
While I love on you

I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you
While I love on you

We can go pro
I love you so
When you take it, baby take it as I taste it
Just play in my hair babe
I won't come up
Until I make your faucet run
Overflowing, keep it cumming, keep It going
Don't stop baby

I'ma make your legs shake
I'ma make your bedrock
Tongue between your legs babe
Call that shit the 'Head-lock'
I'ma show and prove
I'm lost when in you

I'ma make your legs shake
I'ma make your bedrock
Tongue between your legs babe
Call that shit the 'Head-lock'

I'ma show and prove
I'm lost when in you

I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you
While I love on you

I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you
While I love on you

This sex song
Ohh, yeah
Add it to your playlist
While I taste all of your secrets
Baby girl, ohh
This the sex song
While I love on you
Aye
Oh

Oh
I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you (While I'm lovin' all over your body)
While I love on you

I'm giving you this sex song
For your playlist
You tryna set the mood right
Baby, play this
While I love on you
While I love on you
This sex song
