

# Remote Love

Sammy Hagar

I try to reach you but you're too far away  
I try to talk but you've got nothing to say

Somehow you still reach me  
Oh, how you fulfill me  
Every time you nearly kill me  
With your remote love

Last night I almost lost reception  
But my antenna finally made connection, yeah  
I felt the static leave the line  
Felt you comin' in just fine  
Yeah, you're strange but so original

You're remote love  
So far away  
Remote love  
Turn your signal my way

I'm readin' you loud and clear  
And I know you're far away  
But you feel so near  
With your remote love, yeah

Turn it off, turn me on again  
You'll say how, you'll say where and when, yeah  
You make my cord obsolete  
You make touching so incomplete  
Yeah, you make my batteries weak

With your remote love  
So far away  
Remote love  
Ah, turn your signal my way

And I'm readin' you loud and clear  
And I know you're far away  
But you feel so near with your  
Remote love, hey

Remote love  
So far away  
Remote love  
Turn your signal my way

Remote love  
You're so far away  
Remote love  
Just turn your signal my way

Remote love  
Oh, yeah  
Remote love

Remote love  
Turn your signal my way  
Remote love

Yeah, you've got to bring it to me  
Oh, just a send it to me  
You've got to bring it to me  
Oh, yeah
