

There's Love On The Line

Sammy Kershaw

I'm sorry
Hello
I'm unable to come to the phone
Are you there?
So if you don't mind just wait for the tone
Are you listening?
Sammy: Leave your name
By now you must know love is true
And the time
Consider the pain that we're going through
And your number
And I'll get back to you

(both)
There's love on the line
Don't let it go cold
You won't get a thing
By leaving our dreams on hold
We've tried for a while
To loosen the ties
And we've suffered enough
To know there's still love on the line

I'm sorry
Hello
At the moment I can't take your call
Can we talk
I'm busy right now
Climbing these walls
I can see now I'm nothing at all without you
Leave your name
To keep missing each other ain't right
And a message
This feeling inside is too to fight
And the fact that you love
I need you tonight

(both)
There's love on the line
Don't let it go cold
You won't get a thing
By leaving our dreams on hold
We've tried for a while
To loosen the ties
And we've suffered enough
To know there's still love on the line

Oh we've suffered enough
To know there's still love on the line
