

Bye River

Sampa the Great

River, river, river river, river
River, river, river river, river
River, river, river river, river
River, river, river river, river

Three steps forward
Five steps back
We make the strides
We knock 'em back
I'm so confused
Matter of fact
I think I'm being advertised as
Your bubble see through
Token black
One mask fits all but mine is getting
Uncomfortable, uncomfortable
Uncomfortable, uncomfortable

Flow, bye river, bye river
Bye river, bye river
Flow, bye river, bye river
Bye river, bye river
I heard it from Mars
Ooh break it down two rivers are meeting now
I heard it from mars
Ooh break it down
Two rivers are meeting now

Let your yes be yes and your no be no
Gained the whole world for the price of your soul
When your enemies won't reach their goal
All the memories will bring you home
One step back for your inspiration
Never keep pressed on your situation
Always be sure in, third eye open
Still enforcing, so exhausting
River flow deep in silent motion
Raised on seeds of mass proportion
Growing in a world of mass distortion
Please keep you through trials forcing
Through hell, five feet Bella
One slick talking, black Cinderella
Real fast walking
Smooth shit jazz shit smile through rain and sing through havoc

She goes through deep shores
She flows through deep storms
She knows where she goes
Bye river, bye river, bye river
I heard it from Mars
Ooh break it down two rivers are meeting now
I heard it from mars
Ooh break it down
Two rivers are meeting now

River, river, river
River, river, river

River, river, river

Queen shit tho, cautious
How do you navigate through all this systematic
System antics, still keep smiling stuck in traffic
Masking itch face
I'm tired of asking, bitch face
Shy as fuck, I'm new on turf
My days are numbered on this earth
An ocean almost carried you Down Under
You're gonna have to find your tune Down Under
Shit really look Snow White down under
How you supposed to, be black down under
The puzzle piece the match is fixed
The new wave has been here for years
The same two step and the same blueprint
Old school meets bold school takeover shit
Action on plan, fan on fam
Now I am who I am
Uncomfortable uncomfortable
Uncomfortable uncomfortable
She goes through deep shores
She flows through deep storms
She knows where she goes
Bye river, bye river, bye river
I heard it from Mars
Ooh break it down

She knows where she goes
She knows where she goes
She knows where she goes
She knows where she goes
