

Oh I wish I kept myself a little better company
Oh I try to put a good face on it
Someone better come for me

Give me something good to do
Show me where to put my hands
Tell me I'm in love with you
Keep me on the bed stand

Dress me like the other boys
Tell me when my shirt's on wrong
Show me where I'm wearing thin
Help me get along

Oh I wish I kept myself a little better company
Oh I try to put a good face on it
Someone better come for me

Take me to the movies
Ask me if I've left the house
Keep me from the shit I eat
Ask me if I'm working out

Bring me to the backyard
I forget it's there sometimes
Open up the windows
And keep me in the light

Oh I wish I kept myself a little better company
Oh I try to put a good face on it
Someone better come for me

Be patient when I'm difficult
But leave me if you have to
I know why you'd have to
I hope you don't have to

Oh I wish I kept myself a little better company
Oh I try to put a good face on it
Someone better come for me
