

Had A Dream Last Night

Sandie Shaw

Had a dream last night (he's coming home)
Had a dream last night (he's coming home)
Had a dream last night (he's coming home)

As the darkness creeps into the sky
Making me feel so sad tell you why
Every night just about at this time
My love will be with me oh my
And how I miss him, and how I miss him

Had a dream last night (he's coming home)
Had a dream last night (he's coming home)

Lately I've not gone out much at all
Anyway not many people call
I'm not much fun anymore when I'm out
Seems my guy's all that I think about
And how I love him and how I love him

Had a dream last night (he's coming home)
Had a dream last night (he's coming home)

Now I feel so sad (so sad)
So sad (so sad) so sad
When I think of what I had (I had)
I had (I had) it's bad
It seems to love someone I'll never meet again

There was never a love quite like this
And the feeling I got from each kiss
Magic evenings I'd spend by his side
Could not miss them more if I would try
And how I love him and how I love him

Had a dream last night (he's coming home)
Had a dream last night (he's coming home)
Had a dream last night (he's coming home)
