

What's Left to Say

Sandra

What's left to say - is left to say
Now it's too late - now it's too late
Just go away
I just don't care

Words are just an illusion
Time goes by
Love - dying
Is love a lie
Ain't denying
I've sent an SOS to your spirit and your heart
My illusions were just an echo to you heart

What's left to say - is left to say
Now it's too late - now it's too late
Just go away
I just don't care
What's left to say - is left to say
Make no mistake - make no mistake
You gotta pay
I just don't care

Destiny
Unwinding
Extasy
So beguiling
My illusions were just an echo to you heart
But I can't hear it anymore

What's left to say - is left to say
Now it's too late - now it's too late
Just go away
I just don't care
What's left to say - is left to say
Make no mistake - make no mistake
You gotta pay
I just don't care
(I just don't care)
What's left to say - is left to say
(I just don't care)
Now it's too late - now it's too late
(I just don't care)
Just go away
I just don't care
What's left to say...
