

## Just Like They Said

Sara Groves

Laid my head down, fell asleep  
Woke to voices like a mighty rushing wind  
Sky on fire, sky on fire  
They told me how I'd find Him

And it was just like they said  
Just like they said it would be  
Wrapped in a cloth, laid in a manger

And it was just like they said  
Just like they said it would be  
Wrapped in a cloth, laid in a manger

No one believes me, no one believes me  
They shake their heads and say  
"What good comes from Bethlehem?"  
I know what I saw, I know what I saw

And it was just like they said  
Just like they said it would be  
Wrapped in a cloth, laid in a manger

And it was just like they said  
Just like they said it would be  
Wrapped in a cloth, laid in a manger  
Years later I walked by this place  
I know this place  
The roof caved in, but I know this place  
Cause I ran the whole world  
And it was just like they said

And it was just like they said  
Just like they said it would be  
Wrapped in a cloth, laid in a manger

He was just like they said  
Just like they said He would be  
Wrapped in a cloth, laid in a manger

Laid in a manger  
Laid in a manger  
Laid in a manger
