

Small Piece Of You

Sara Groves

I just want a small piece of you
a token to put in my pocket
and I will own that one thing
and it would make me happy
I just want a small piece of you
somethin to put in a locket
and i will look at it daily
and that will make me happy

I guess it's human nature to want to hold you very still
I guess it's in a mother to inject a little guilt
Go on son and see the world
