

Beautiful Circle

Sara Storer

There's work to be done
You had a good go
The tractor is ready there is plenty to sow
This year's the year
With good looking ground
And I'm feeling good
As I make my way round

Down comes my dinner
And then I'm awake
Nothing is better with tea, but some cake
But it's dry Sao biscuits
And who's to complain
Cause the tractor is ready
To go round again

Oh it's a beautiful circle
And so I don't go insane
I'll try up and down
And up and down again
And then as soon as I'm right
I might try going round again

The cheeky old fox
Whose been using my light
Is lucky my tractors not armed for the night
The owls out here too, swooping the ground
I'll help you again
On my way back around

I've been out in the paddock
All night and a bit
And my take over driver
Should be down with the ute
So I call on the channel
But I can't track him down
So good morning sunrise
I'll race you around

Oh it's a beautiful circle
And so I don't go insane
I'll try up and down
And up and down again
And then as soon as I'm right
I might try going round again

But this is my life and we understand
Me and my tractor going round and round

Oh it's a beautiful circle
And so I don't go insane
I'll try up and down
And up and down again
And then as soon as I'm right
I might try going round again

Oh it's a beautiful circle

And so I don't go insane
I'll try up and down
And up and down again
And when I've had enough of that
I might try over and back
