

# Drags Me Down

Sarah Blackwood

moon shiner come find her  
she's broken by the river  
and just can't find her heart  
oh this devil drags her down  
sweet sixteen  
seen things you ain't ever seen  
still got his eyes open  
on following a dream  
but he don't know  
that this devil will drag him down

but I, I, I, I know  
this devil drags them down

tonight has finished me off again  
I just can't keep up  
and try to kick the drink  
but my baby knows  
that this devil drags me down  
long nights make for longer days  
you'll never see it coming  
till it puts you in your place  
but I, I know  
that this devil will drag me down

but I, I, I, I know  
this devil drags me down

it ain't so tough  
being all alone  
until you just can't take  
being all alone  
you can't keep on closing  
and locking all your doors  
cause darling you get older  
it ain't easy anymore

but I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down  
and I, I, I, I know  
this devil drags me down
