

## Go Ahead

Sarah Blackwood

I've looked deep in to hell  
Watched all the demons sit back and laugh while I fell  
Oh, and I ain't going back  
They say love can conquer it all  
So where was that army to fight when our hearts hit a wall  
Oh, and it won't bring you back

So go ahead and break another girl's heart  
Cause darlin', I move faster when I'm outta love  
We're all sinking anyway  
We're all sinking

I've been broken and torn  
I've walked the line and crossed out all reason before  
Oh, and I ain't going back  
We've all got secrets to hide  
Just keep playing the part to it's easy to sit back and smile  
Oh, but it won't bring you back

So go ahead and break another girl's heart  
Cause darlin', I move faster when I'm outta love  
We're all sinking anyway  
We're all sinking

Now I see clear in the dark  
The scars that hold on me will take me right back to the start  
Oh, but it won't bring you back

So go ahead and break another girl's heart  
Cause darlin', I move faster when I'm outta love  
We're all sinking anyway  
We're all sinking
