

# You Are My Desire

Sarah Connor

When the rain keeps falling  
Can't you hear me calling?  
For somebody new  
Someone just like you

Don't you feel there's something  
Deep inside you waiting  
For the slightest change  
To go and do your dance

You're lying awake in the night  
You just wanna do something right

So don't forget to breathe  
Let it in, let it out  
For all the world to see

From within and without  
You're shining like a star  
Let it in, let it out  
Tonight you are my desire

The evil's on the move  
Let it in, let it out  
It's coming straight to you  
From within and without

Keep shining like a star  
Let it in, let it out  
Tonight you are my desire

Don't you keep me waiting  
When I'm concentrating  
Let me be your girl  
And we can rule the world

Love will lead us somewhere  
And you will like it I swear  
Without pain no gain  
We'll never be the same

We're lying awake in the night  
And all that we do is just right

I'd like to taste my choco-lata right before drinking  
You've got to shake your butt un poco if you want bling bling  
Oh, mi amor, take your time this is what I'm thinking  
Just keep your breath  
'Cause you will never know when the ship's sinking

Aire dentro, aire fuera  
No te olvides de respirar  
Brillas como una estrella  
Esta noche eres mi deseo  
Esta noche eres mi deseo
