

Blue Sky

Sarah Darling

I've been broken lately
There was nothing here but grey
Then you came to save me
And I watched the clouds fall away

You and me
In the wild
Like a dream
Comes to life
My imagination
Couldn't make you up

C'est la vie yeah
Rolling with the windows down
Caught in a feeling
Floating in a summer sound
Never been so high
Could it be love this time
You bring me blue sky
Nothing but blue sky

Your love looks good on me
Oh as far as I can tell
Put your arms around me
And I'll start to lose myself

You and me
In the wild
Like a dream
Comes to life
When I'm with you
Everything starts to glow
Starts to glow

C'est la vie yeah
Rolling with the windows down
Caught in a feeling
Floating in a summer sound
Never been so high
Could it be love this time
You bring me blue sky
Nothing but blue sky

Can't keep my feet on the ground
You've got me spinning around

C'est la vie yeah
Rolling with the windows down
I'm caught in a feeling
Floating in a summer sound
Never been so high
Could it be love this time
You bring me blue sky
Nothing but blue sky
