

# Call Me

Sarah Darling

That late night goodnight call when you had too much to drink  
That skinny dip in the moonlight, that magic summertime thing  
That highway I've been drivin', wanna feel every curve  
That taste of whiskey when you wanna kiss me

But you don't have enough  
Wanna be, wanna be there for you  
If you want, if you really want me to

I'll be there, head rush, little too much  
Moonshine buzz, party crashin', Appalachian honey  
I'll be that song you wanna sing  
Like you're seventeen, wild and reckless  
All you gotta do is call me

Gonna be there  
Wanna be there for you  
Gonna be there

Last thing, all I need, I'm filling in the color of a new tattoo  
That Roman candle that you're holdin', shootin' red white and blue  
That full moon halfway there when you're barefoot in the grass  
Sayin' oh babe, let's take it slow babe

But your heart beats too fast  
Wanna be, wanna be there for you  
If you want, if you really want me to

I'll be there, head rush, little too much  
Moonshine buzz, party crashin', Appalachian honey  
I'll be that song you wanna sing  
Like you're seventeen, wild and reckless  
All you gotta do is call me  
I'll be that song you wanna sing  
Like you're seventeen, all you gotta do is call me

I'll be there, head rush, little too much  
Moonshine buzz, party crashin', Appalachian honey  
I'll be that song you wanna sing  
Like you're seventeen, wild and reckless  
All you gotta do is call me

That feelin' that you get  
When you're runnin' out of breath so fast  
All you gotta do is call me  
I'll be that song you wanna sing  
Like you're seventeen, all you gotta do is call me

Wanna be, wanna be there for you baby  
If you want, if you want, you want me to  
Wanna be, wanna be there for you  
If you want, if you really want me to
