

Enjoy the Ride

Sarah Darling

Waking up while the world still sleeps
Another nameless city street
A million strangers searching hard
For every lucky one a broken heart

Now my heart is racing
But I'm always chasing

On a rocket to the top
I'm hanging on afraid to stop
Let's keep dancing till we drop
Sit back enjoy the ride
Destination out of time
On the way let's lose our minds
I'll be yours and you'll be mine
Sit back enjoy the ride
Sit back enjoy the ride

No rehearsal, no second chance
No regrets or bad romances
Money comes and money goes
Love's our currency so let it grow

All the dreams I'm chasing
It's your heart that keeps me racing

On a rocket to the top
I'm hanging on afraid to stop
Let's keep dancing till we drop
Sit back enjoy the ride
Destination out of time
On the way let's lose our minds
I'll be yours and you'll be mine
Sit back enjoy the ride
Sit back enjoy the ride

While the lights are fading
We'll embrace the dark
Place your hands upon my heart
And swear that you'll be here
If I ever fall apart

On a rocket to the top
I'm hanging on afraid to stop
Let's keep dancing till we drop
Sit back enjoy the ride
Destination out of time
On the way let's lose our minds
I'll be yours and you'll be mine
Sit back enjoy the ride
Sit back enjoy the ride
Sit back enjoy the ride
Sit back enjoy the ride
Sit back enjoy the ride
