

Stargazer

Sarah Darling

Go on stargazer
Don't ever shield your eyes
Desert your fortress
You don't belong inside

Go on stargazer
I know it seems so far
Drown out the voices
You're not who they say you are

I know you're time is coming soon
Coming soon
And no one can keep you here
Keep you here, but you

Go on stargazer
Peer through the cosmic dust
You belong out there
You weren't born to rust

Go on stargazer
I know how much it hurts
But you are free now
So pick your universe

I know you're time is coming soon
Coming soon
And no one can keep you here
Keep you here, but you

Ooh-oh, aah-ah
Ooh-oh

Go on stargazer
Embrace your brightest light
You must be fearless
But you can leave tonight
