

# One Heart

Sarah Geronimo

They say it's forever  
When you find that perfect one  
That fills your song  
When everything you will ever  
Need in this world

I know it's no easy  
To be able to surpass  
Those lonely days  
Of waiting for  
Love to come around again

I've only got  
One heart to give  
One love that feels  
This strong and don't you waste it  
Now just share your love with me  
So happy we'll forever be

I've only got  
One heart to give  
One love that feels  
This strong and baby take it now  
Then spend your love of me  
Forever like a song  
That's playin' on and on

I want us together  
Every single minute  
Of each passing day  
I will not afford  
Loosing sight of you  
For a second

Love can heal a heart  
That has been broken  
Once before  
Thought my heart won't  
Love again  
And give so much more  
So much more...  
Ohhh...

Forever like a song  
That's playin on and on
